01 ABOUT-ME

Full stack web developer proficient in creating responsive applications and enhancing both frontend and backend performance.

02 EXPERIENCE

6/2023 — 6/2024

On Site job at Elpha-Tech Faisalabad

During my one-year on-site job at Elpha-Tech Faisalabad, I worked as a full stack web developer. I optimized database schemas, integrated frontend and backend services, conducted code reviews, and implemented innovative technical solutions.

My efforts significantly improved system performance and demonstrated strong problem-solving, collaboration, and teamwork skills.

01/2023 — 6/2023

Internship at E-Force Lab – (Lahore)

During my 6-month internship at E-Force Lab in Lahore, I worked as a full stack developer. I designed and optimized database schemas, integrated frontend and backend services, and collaborated with the team to connect user interfaces with backend services. I participated in code reviews, debugging sessions, and researched solutions for technical challenges. I also assisted in deploying and monitoring applications. Additionally, I contributed to documenting codebases and development processes. My work included developing and maintaining WordPress sites and WooCommerce stores, receiving positive feedback for my problem-solving and teamwork skills.

07/2024 — present

Work as Personal

During my undergraduate studies, I independently honed my website development skills, focusing on React, Node, PHP, and Laravel. Engaging in paid projects with local collaborators and software houses, I tackled diverse challenges in E-commerce, kid-friendly websites, blogs, travel portals, portfolios, and Shopify stores. This experience heightened my problem-solving abilities and client-centric approach, emphasizing the importance of clear understanding and logical clarity in meeting client requirements.

Specializing in diverse projects, from E-commerce platforms to kid-friendly websites, blogs, travel portals, portfolios, and Shopify stores.

I navigated challenges with adaptability and precision. This hands-on experience not only sharpened my problem-solving skills but also underscored the critical role of clear communication and logical acuity in comprehending and meeting client needs.
